Nominator's Recommendation Comments: I have known Belinda Mello since she was a teacher trainee. We have been in close touch ever since. We have exchanged work regularly and she has been a faculty member at many of my workshops. I am familiar with her thinking and teaching. She is an outstanding Alexander teacher and one of the few people to whom I turn when I feel in need of help myself. She is a person of great intelligence and impeccable integrity. She has the highest standards for herself and is continually developing her understanding of our work in ways that I find revealing and inspiring. She has also made fine contributions to ATI, particularly in helping to develop our quest for equity, diversity, and inclusion, and in her teaching career she has had considerable experience with teaching diverse student populations.

I am entirely confident that as an ATI Sponsor she will evaluate candidates fairly and rigorously in a way that brings out the best in them and is helpful to them in moving forward in becoming competent professional Alexander teachers. She would be among my very first recommendations to any candidate as an evaluator.

I recommend her without reservation and with genuine enthusiasm.
